

AIMBI Sydney Local Group 2010 Conference Update

The Children's Hospital at Westmead in association with The Australian Institute of Medical and Biological Illustration (AIMBI) will be host to a conference entitled "**Recent Advances in Medical Photography**" October 15th and 16th this year.

Topics and presentations include the following:

- **Ultra violet and infra red photography (a discussion of light sources and digital SLR conversions and medical applications)**
- **Cataract Photography**
- **Digital workflow systems**
- **Virtual Reality (3 dimensional) still photography**
- **3D video and a medical application**
- **Dental photography – a clinician's perspective**
- **Cleft palate photography – a clinician's perspective**
- **Issues facing photography in the Antarctic**
- **Photoshop CS5 – new features**
- **Non destructive image enhancement using Photoshop layers**
- **Photomicroscopy**
- **Recent advances in light shaping tools and lighting accessories (workshop)**

This conference will be of great benefit to anyone involved in biomedical and scientific photography.

Please put aside these 2 days so that you will not be missing out in participating in this up to date information exchange.

There is still time for you offer to contribute a presentation as there are a small number of session times still remaining.

A programme will be circulated in a short time with cost, registration details and a schedule of presentations.

There will be two photographic competitions held in conjunction with this conference. Please consider you submissions. Excellent prizes will be awarded.

For further details please contact **John Yeats (0414 533 438 or email, john@johnyeats.com)**
