

### Survey of Practising Medical or Biological Photographers/Illustrators in Australia

A subcommittee of the Australian Institute of Medical & Biological Illustrators (AIMBI) is preparing an application on behalf of all Australian medical, biological scientific & technical photographers/illustrators to be registered with the "National Registration & Accreditation Scheme for Health Professionals". If successful this will bring our profession inline with other allied health professionals who will be registered in July 2010. The professions that will be registered in the first round are physiotherapists, podiatrists, dentists (including dental prosthesis), pharmacists, optometrists, chiropractors, osteopaths, pharmacists, doctors and nurses.

To assist us in developing an application please complete this survey and email or fax it to the National Registration sub committee member in your state. (See contact details below).
